

Audio & Visual Needs

The following is a list of Audio/Visual specifications Scott requests for this programs:

- A wireless lavalier or headset microphone and sound system ready to go for groups larger than 50 people.
- At least one plug outlet or power strip within 10 ft of the presentation space.
- 1 flip chart with markers
- 1' high riser platform with stair set in front of riser if more than 100 people
- 6' table near door entrance/exit for handouts, evaluations, products, etc.

Room Set-up

Scott is very flexible and can work with generally any room set-up: round tables, classroom style, large conference or banquet hall. The most important element of the set-up is the audience's ability to clearly see Scott when he presents. Please be sure to let Scott know of the style of set-up well in advance so he will be prepared for the room and can make suggestions for changes should any be needed.

Recording Policies

As all of Scott's programs (presentations, documents, and the like) are his and Real World Magic's intellectual property he cannot allow any type of recording (audio/video) of his programs without written permission from Scott or an Real World Magic representative. Most clients do want to record his programs due to their high-content and entertaining nature. Please let Scott know well in advance if you would like to record his presentation so proper arrangements and documentation can be prepared.
